Aisami's 5D Model for Planning, Teaching, and Evaluating Online Courses

A Step-by-Step Implementation Guide

Riad S. Aisami, Ph.D.

TABLE OF CONTENTS

Major sections of the implementation guide. The five stages provide a systematic route from course planning to teaching, evaluation, and improvement. This preview lists the main sections rather than every activity or subsection.

Introduction and Orientation

- Introduction
- How to Use This Guide
- 5D Model Overview
- Summary of the Three Phases and Five Stages

Phase I: Planning

- Stage One: Define
- Stage Two: Design
- Stage Three: Develop

Phase II: Teaching

- Stage Four: Deliver

Phase III: Evaluating

- Stage Five: Determine

Included with training: The complete PDF eGuide is provided at no additional cost to participants enrolled in the corresponding GIDE instructor-led training course.
